WARLORD OF MARS

Dejah Thoris

Barsoom, four centuries before the advent of Captain John Carter. The twin cities of Helium are struggling to rebuild after the devastation wrought by the Colossus of Yorn.

A mysterious gold coin in Helium's Antarctic pumping station led Dejah Thoris into a trap set by Phondari, the Pirate Queen of Mars, and her brother Joktai. The pair are renegades of the moon pirates of Barsoom.

Xen Brega, a feared Dator of the cannibalistic pirates, seized Phondari and Dejah Thoris. After a narrow escape, Dejah learned the coin is part of the Hoard of Segotha, a legendary treasure entombed in the glaciers of the Martian south.

Dejah and Phondari delved into the ice, battled a gigantic worm, and finally found the Hoard, which ancient and thoroughly insane moon pirates have been guarding for over a millennia.

The Hoard contains pearls, an unheard of luxury on Mars, as well as the mummified remains of a princess and a warning that the treasure is cursed.

Xen Brega followed the women to the treasure. He is determined they will not escape again...
